

# *Protect. Repair. Hydrate.*

AnteAGE® Barrier Repair is enhanced with proprietary Biosomes to restore skin's natural protective barrier. Designed to deliver deep hydration and support skin recovery, Barrier Repair is a multitasking cream that also brightens, provides antioxidant benefits against environmental stressors, reduces the look of fine lines/ visible signs of aging, and helps defend from the visible effects of blue-light exposure.

**Barrier:** Helps strengthen/support the skin's moisture barrier; reduces the look of dryness

**Hydration & Comfort:** Provides instant and long-lasting hydration and helps soothe and comfort the look of stressed skin

**Radiance:** Improves the look of radiance and more even tone

**Antioxidant:** Provides antioxidant benefits against environmental stressors

**Texture/lines:** Softens the appearance of fine lines

Powered by Biosomes.

A close-up portrait of a woman's face, focusing on her eyes and skin. Her skin has a natural, dewy glow, and her eyes are a striking blue. Her hand is gently touching her cheek, emphasizing the texture and health of her skin. The background is a soft, out-of-focus grey.
