

# *Eyes, Perfectly Framed*

Reveal the natural beauty of stronger, longer, and visibly fuller lashes and brows. Formulated with our proprietary Biosome technology, this advanced serum delivers 13 recombinant human growth factors and a potent blend of clinically proven actives—working in harmony to support hair vitality at the root.

This formula synergistically targets hair follicle vitality, anchorage, and visible growth - without the use of prostaglandins or hormones.

This formula has been tested using validated human corneal models and demonstrated a non-irritant profile.

Now contains Biosomes for enhanced bioavailability and follicle penetration.

Each end of the product has a different applicator:  
Lash applicator  
Brow applicator
