BEFORE

AFTER 30 DAYS

PRODUCTS USED:

- ANTEAGE MD® SERUM
- ANTEAGE MD® ACCELERATOR

A close-up, high-resolution photograph of a person's face, focusing on the skin texture. The image shows the side of the face, including the ear, cheek, and lips. The skin is fair with numerous small, light brown freckles scattered across the cheek and forehead. The lips are slightly parted, showing a natural pinkish-red hue. The lighting is soft and even, highlighting the natural grain and imperfections of the skin.

CLINICAL TRIAL ON
MULTIPLE **ANTI-AGING** BENEFITS

BEFORE

AFTER 30 DAYS

PRODUCTS USED:

- ANTEAGE MD® SERUM
- ANTEAGE MD® ACCELERATOR

A microscopic image showing a field of cells. The cells are stained with a blue dye, likely DAPI, which highlights the nuclei. The cells are scattered across the field, with some showing distinct nuclei and others appearing as smaller, less defined spots. The background is a light, pale blue color. The overall appearance is that of a cell culture or a tissue section under a microscope.
